DESIGN THINKING: A NON-LINEAR PROCESS

PROBLEM STATEMENT

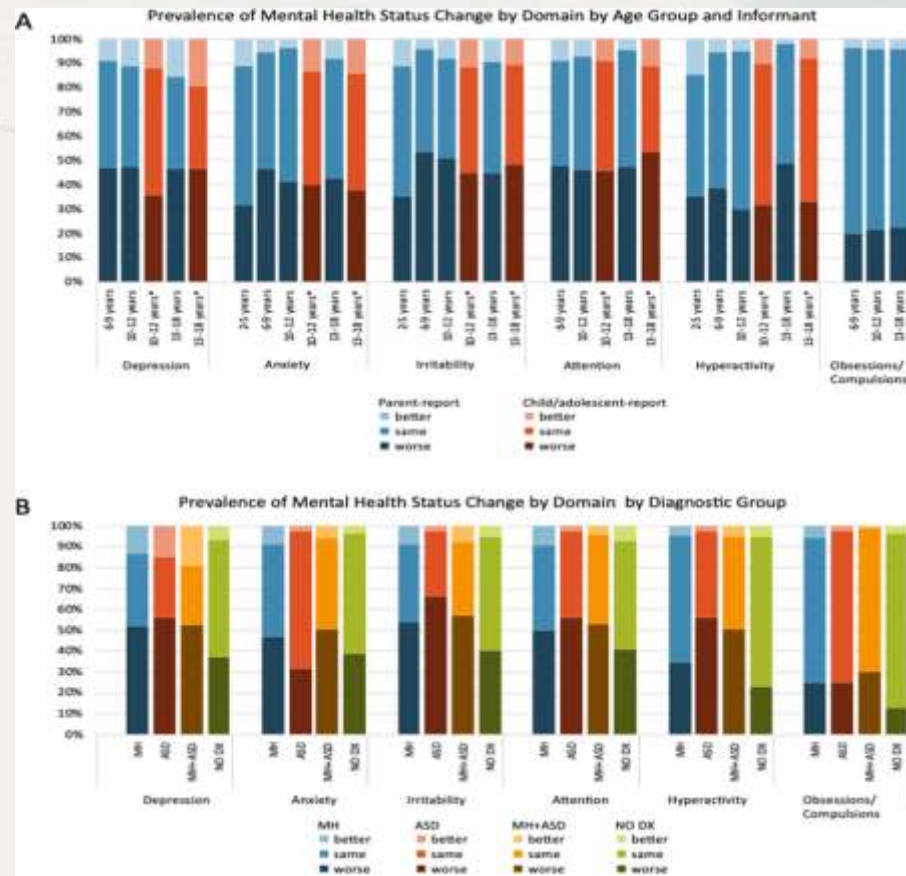

❑ CONFRONTING MODERN MENTAL HEALTH STRUGGLES :-

- ❑ There is no health without mental health .Health as a whole is the combination of mental as well as physical health.

STATISTICS :

- ❑ **Despite this dire need, the Indian government spends only about 0.06 per cent of its total health expenditure on mental health, with only 0.75 psychiatrists per 100,000 people⁶ and even lesser on mental health nurses, social workers and psychologists.**

- ❑ The Lancet report of 2019 TO 2023 tells this rate has increased.
- ❑ <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC10793817/>

Demographic

General Hospital, Vienna

Married

Psychologist

Skills

psychoanalysis

Observation

patience and communication

Goals

To understand the personality through levels of awareness and our three minds: conscious, preconscious and unconscious.

Quote

The goal of all life is death.

Background

Sigmund Freud was an Austrian neurologist and the founder of psychoanalysis, a clinical method for evaluating and treating pathologies seen as originating from conflicts in the psyche, through dialogue between patient and psychoanalyst, and the distinctive theory of mind and human agency derived from it.

Sigmund Freud's Theory of **Psychosexual Development** suggests that human personality develops through a series of stages, each of which is centered around the satisfaction of certain physical or psychic needs. There are five stages in this theory - oral, anal, phallic, latent, and genital.

And he died on 23rd september 1939.

Motivations

Was being motivated to gain knowledge and read a number of books.

He believed that human behavior is motivated by ego, id, superego.

He had extreme positiveness.

Frustrations

He's the world no 1. psychologists past 1939 hence he knows well how to deal with frustrations.

PSYCHOLOGIST			
Susan Fiske  Susan Fiske, a distinguished social psychologist, grew up surrounded by a supportive family environment that nurtured her intellectual curiosity and passion for psychology.			
	Before Journey	During Journey	After Journey
Goals	Understand the needs and challenges of clients, streamline processes for efficient service delivery, improve team collaboration.	Throughout their professional journey, psychologists pursue goals aimed at advancing their knowledge and skills.	Evaluate service outcomes, gather feedback for continuous improvement, foster long-term client relationships.
Expectations	Expect to provide high-quality mental health services, establish effective communication channels with clients.	Psychologists may have various expectations that guide their career trajectory and personal development.	Expect positive client outcomes, increased client satisfaction, and retention, improved team performance.
Story Board			
Process	→	W	0
Pain Points	Lack of standardized processes, communication barriers, limited resources, limited visibility into client needs.	Balancing empathy with professional boundaries while navigating emotionally demanding client interactions.	Difficulty in measuring service impact, addressing client concerns post-session, managing team burnout.
Touch Points	Initial client inquiries, team meetings, resource allocation discussions, training sessions for staff.	Client sessions, team meetings, ongoing training and development, feedback collection from clients and staff.	Follow-up sessions with clients, satisfaction surveys, team debriefings, performance evaluations.
Experience			
Problems	Burnout and Stress, Limited Resources, Work-Life Balance	Managing client caseload effectively, addressing diverse mental health needs, ensuring confidentiality and privacy.	Career Transition, Financial Pressures and Job Insecurity, Maintaining Relevance and Skill Development.
Solutions	Implement self-care practices, Collaborate with professional organizations, Prioritize self-care practices such as regular exercise.	Implementing client management systems, conducting regular training, establishing clear communication protocols.	Psychologists can explore alternative career paths within or outside of psychology, Psychologists can diversify their income streams.
